P3 - 1 CASE [MURSHIDABAD]

RI NEWS FLASH

SAKUJI TANAKA IS NOMINATING COMMITTEE CHOICE FOR RI PRESIDENT 2012-2013

Sakuji Tanaka, a member of the Rotary Club of Yashio, Saitama, Japan, is the selection of the Nominating Committee for President of Rotary International in 2012-13. Tanaka will become the president-nominee on 1 October if there are no challenging candidates.

Tanaka said he would like to see Rotary "continue its vital work as the force to improve our communities."

To do this work, Rotary needs active, involved clubs, he added. "We are fortunate to have our revised RI Strategic Plan to help build strong clubs that are vibrant, action-oriented, and relevant in the changing world."

For 32 years, Tanaka was president of Tanaka Company Ltd., a wholesale firm that went public in 1995 and later merged with other leading wholesalers in Japan. Currently, he serves as vice president of the Yashio City Chamber of Commerce and adviser to Arata Co. Ltd., an animal feed and pet food wholesaler. He also chaired the National Household Papers Distribution Association of Japan for eight years. Tanaka studied business at Nihon Management Daigakuin and Tokyo Management Daigakuin.

Currently a trustee of The Rotary Foundation, Tanaka chaired the 2009 Birmingham Convention Committee. His other service to Rotary includes RI director, regional Rotary Foundation coordinator, district governor, and member of the Polio Eradication Advocacy Task Force, the Permanent Fund Committee for Japan, and the Future Vision Committee.

Tanaka established an endowed Rotary Peace Fellowship, and he and his wife, Kyoko, are Paul Harris Fellows, Benefactors of the Permanent Fund, and Major Donors.

He is a recipient of RI's Service Above Self Award and The Rotary Foundation's Distinguished Service Award.

Tanaka said that eradicating polio will "fulfill the promise we made to children in the world" and that "there is no doubt in my mind that the day of this success will be realized in the near future."

Tanaka and Kyoko have three children and five grandchildren.

The 2010 nominating committee members are John F. Germ, USA (chair); Monty J. Audenart, Canada; Keith Barnard-Jones, England; Peter Bundgaard, Denmark; Frank C. Collins Jr., USA; Rudolf Hörndler, Germany; Jackson San-Lien Hsieh, Taiwan; Umberto Laffi, Italy; Ashok M. Mahajan, India; Gerald A. Meigs, USA; Paul A. Netzel, USA; Samuel A. Okudzeto, Ghana; Kazuhiko Ozawa, Japan; Noraseth Pathmanand, Thailand; Themistocles A.C. Pinho, Brazil; Barry Rassin, Bahamas; and Barry E. Thompson, Australia.

Did you know ?

- The "pound" key on your mobile phone keyboard (#) is called an octotroph.
- The only domestic animal not mentioned in the Bible is the cat.
- The "dot" over the letter "i" is called a tittle.

- Table tennis balls have been known to travel off the paddle at speeds up to 160 km/hr.
- Pepsi originally contained pepsin, thus the name.
- The original story from "Tales of 1001 Arabian Nights" begins, "Aladdin was a little Chinese boy."
- Nutmeg is extremely poisonous if injected intravenously.
- Honey is the only natural food that is made without destroying any kind of life. What about milk you say? A cow has to eat grass to produce milk and grass is living.
- The most common name in the world is Mohammed.
- The volume of the Earth's moon is the same as the volume of the Pacific Ocean.
- Spiral staircases in medieval castles are running clockwise. This is because all knights used to be right-handed. When the intruding army would climb the stairs they would not be able to use their right hand which was holding the sword because of the difficulties of climbing the stairs. Left-handed knights would have had no troubles, except left-handed people could never become knights because it was assumed that they were descendants of the devil.
- Ham radio operators got the term "ham" coined from the expression "ham fisted operators," a term used to describe early radio users who sent Morse code (i.e., pounded their fist).
- The slogan on New Hampshire license plates is "Live Free or Die." These license plates are manufactured by prisoners in the state prison in Concord.
- Hydrogen gas is the least dense substance in the world, at 0.08988g/cc.
- Hydrogen solid is the most dense substance in the world, at 70.6g/cc.

Object of Rotary

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster :

First : The development of acquaintance as an opportunity for service;

Second : High ethical standards in business and professions; the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;

Third : The application of the ideal of service in each Rotarian's personal, business and community life;

Fourth : The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.
